

**ALSSATA
LOJISTIK**

FOR MACHINERY

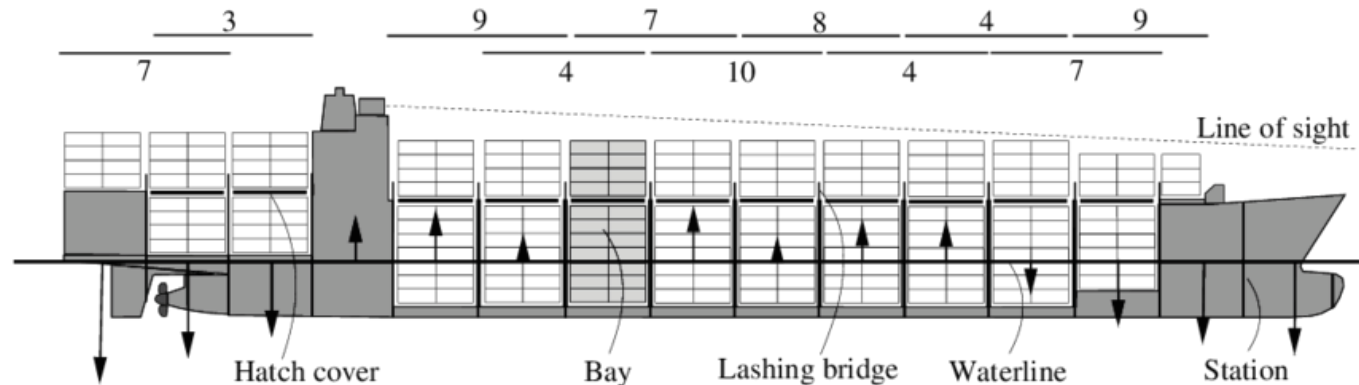

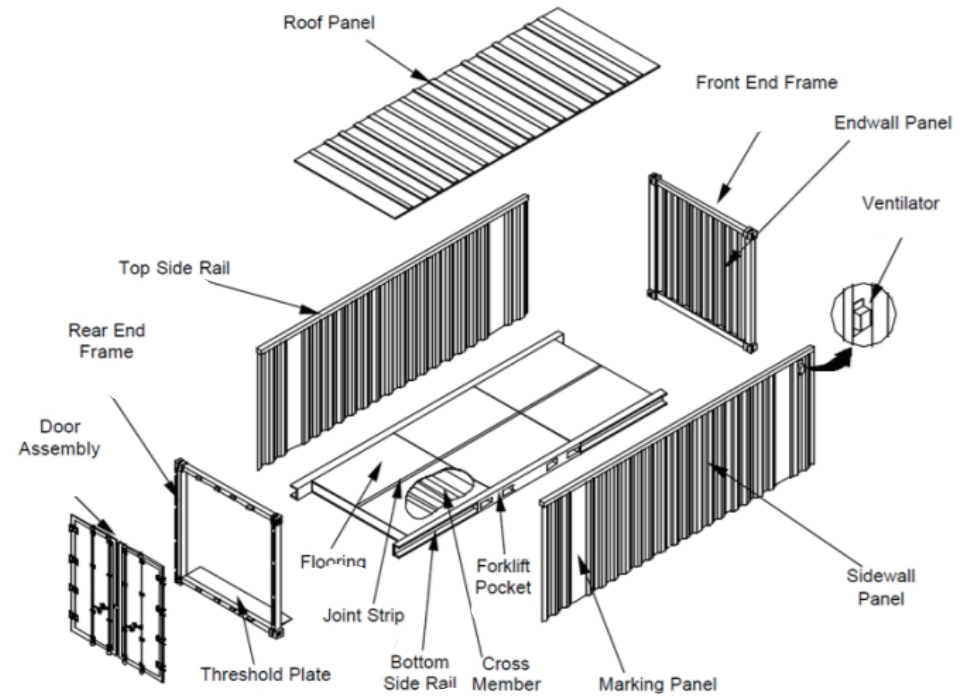

Better solution, to a better you.

Alssata has a full team specialized in dealing with large machines and industrial equipment

After receiving the customer's request, the team studies the project and communicates with the factory and the shipping line to reserve space on the ship or air freight companies to organize the space on the plane on this basis

Then the team begins preparing and organizing the appropriate equipments for transporting the machines
